EDUCATION

University of Tübingen

M.Sc. in Machine Learning - GPA: 4.00/4.00

Tübingen, Germany

Oct 2023 – Jul 2025

Boğaziçi University

B.Sc. in Computer Engineering - GPA: 3.88/4.00

İstanbul, Turkey

Sep 2018 – Jul 2023

Ranked 3 out of 91 – High Honors

*Bachelor's Project: A Comprehensive Analysis of Static Word Embeddings for Turkish**

WORK EXPERIENCE

Trendyol

Associate Developer

İstanbul, Turkey

Jul 2022 – Dec 2022

- Developed and maintained batch data pipelines using **Apache Spark**, **Scala**, and **Alibaba Cloud EMR Service**. Worked on integrating different monitoring tools including Datadog, Grafana, New Relic, and Alibaba Cloud Monitoring with various products. Improved documentation by integrating Swagger and preparing data pipeline diagrams
- Technology Stack: Scala, Spark, Alibaba Cloud, Terraform, Kubernetes, Kafka, Zeppelin, Hadoop, Hive

RDC+

Data Science Intern

İstanbul, Turkey

Aug 2021 – Oct 2021

- Developed **Selenium** and **BeautifulSoup** scripts using **Python** to automate web scraping processes for collecting user data, including posts and related information. Employed **Neo4j** to construct graphical representations of the gathered data, facilitating comprehensive analysis and visualization of user interactions and content dynamics. Learned about multiclass sentiment analysis, working on the product reviews using Turkish NLP (Zemberek) tools
- Technology Stack: Python, Neo4j, BeautifulSoup, Selenium

RESEARCH EXPERIENCE

Max Planck Institute for Biological Cybernetics

Machine Learning Research Assistant at [Department of Computational Neuroscience](#)

Tübingen, Germany

Sep 2024 – Feb 2025

- Explored the perception of visual complexity by introducing new interpretable features, such as Multiscale Sobel Gradients (MSG) and Multiscale Unique Colors (MUC), to quantify structural and chromatic aspects of images across multiple scales. Additionally, I investigated the role of cognitive dimensions like surprise scores in visual complexity perception by creating a new dataset (Surprising Visual Genome) with human-annotated ratings collected via Prolific pairwise comparison experiments and analyzed using the Bradley-Terry model for final rankings. Developed an interpretable model achieving significant improvements over prior methods, with correlation increases exceeding 0.10 in multiple datasets. Demonstrated consistent performance gains across 7 diverse datasets, surpassing handcrafted features and CNN-based baselines.*
- Technology Stack: Python, PyTorch, Sentence-Transformers, LLMs, Minicons, Prolific, jsPsych, JavaScript, PHP

University of Tübingen

Machine Learning Research Assistant at [Computer Graphics Lab](#)

Tübingen, Germany

Sep 2024 – Feb 2025

- Worked on a comprehensive benchmark evaluating the in-domain performance, transfer learning, multi-domain pretraining, OOD detection, and generalizability of self-supervised learning methods in medical imaging. Compared 8 SSL frameworks across 11 diverse medical datasets, using both convolutional and transformer-based architectures with different initialization strategies for self-supervised pretraining to assess their effectiveness in real-world clinical applications.*
- Technology Stack: Python, PyTorch, PyTorch Lightning

The Scientific and Technological Research Council of Turkey

Tübitak Star Research Intern at [Sabancı DHLab](#)

İstanbul, Turkey

Jun 2023 – Jul 2023

- Contributed as a Tübitak (The Scientific and Technological Research Council of Turkey) undergraduate research intern to the project “Automatic Transcription of Ottoman Turkish Documents using DL Technologies” ([publication](#)). Solved the OCR and ground truth sequence alignment problem with Dynamic Time Warping and Levenshtein distance

TEACHING EXPERIENCE

University of Tübingen

Tübingen, Germany

Teaching Assistant at [Autonomous Learning Group](#)

May 2024 – Sep 2024

- Served as a practice group leader for the course “Introduction to Machine Learning” (Summer 2024). Supervised an exercise group, evaluated weekly student submissions, and assisted in grading the final exams

Boğaziçi University

İstanbul, Turkey

Undergraduate Teaching Assistant

Mar 2021 - Jun 2023

- Spring 2023 - Fundamentals of Software Engineering
- Spring 2022 - Introduction to Object Oriented Programming
- Fall 2021 - Introduction to Computing
- Spring 2021 - Introduction to Computing
- Engaged in a diverse array of responsibilities, including project preparation, formulating weekly lab questions, evaluating student submissions, maintaining communication with students, and producing educational [videos](#)

SCHOLARSHIPS & ACHIEVEMENTS

TEV-DAAD Scholarship: Selected for the joint scholarship awarded by the German Academic Exchange Service (DAAD) and the Turkish Education Foundation (TEV) to pursue my master’s studies in Germany, among 45 recipients annually.

Wübben Foundation Student Grant: Selected for the scholarship for outstanding Master’s students, awarded by the Wübben Foundation, among up to 55 recipients annually.

KYK Top 100 Government Scholarship: Awarded to undergraduate students who have been ranked in the top 100 on National University Admission Exam by Higher Education Credit and Hostels Institution (KYK)

Trendyol & TOG Education Scholarship: Awarded to top 50 undergraduate students based on university entrance ranking and academic achievement in the university

Tübitak 2247-C Intern Researcher Scholarship: Awarded to undergraduate students who take part in research projects carried out by the Scientific and Technological Research Council of Turkey

Bending Spoons Transcend 2022: Selected to be one of the 5 students from Turkey and 25 students from Europe to receive exclusive, one-on-one mentorship from a senior engineer at Bending Spoons

National University Admission Exam: Ranked 143rd in Mathematics and Science among ca. 2 million candidates

National University Admission Exam (Foreign Language): Ranked 99th in Foreign Language (English) among ca. 2 million candidates

Boğaziçi University Computer Engineering Third Ranking Award: Graduated as the third-highest ranked student in my class

Haydarpaşa Anatolia High School Salutatorian Award: Graduated as the second-highest ranked student

LANGUAGES

Turkish: Native language

English: Advanced ([IELTS](#) 8.0 in 2022)

German: Elementary ([did deutsch-institut zertifikat](#) in 2023)
